

**### For Immediate Release to the World.**

Jan 6, 2017 for ASEAN Energy Conference ADB. Manila. This is previous solution broadcast to world years ago that changes history. Use [BidOnKeith.com](http://BidOnKeith.com) to solve all your own worldly problems at all levels of history.

The most powerful Green Energy Renewable Reserve from Gods creation is WATER and SUN. The most obvious solution to create almost unlimited energy is simple yet has never been harnessed because of the pure greed and lack of education of mankind. Rainfall, typhoons, hurricanes can be easily used as the most massive transfer of potential energy turned into working kinetic power. This one famous solution creates new paradigms of history. [TurnOffLights.com](http://TurnOffLights.com) is the other PAIRED 10 to 50% world energy conservation answer.

A primary world issue is deforestation of our world, massive burning of fossil fuels, energy military wars, flooding, food production, and scarcity of clean drinking water. Beavers have built 'damn' dams for millennium. We have Bulldozers, back-hoes, and massive earth moving technology over past +200 years. Concrete and piping are commodities including baked clay. This remains the PRIME answer to world issues solved below.

The energy of quad-trillions of gallons of water fall on God's earth annually. In the upper mountains and foothills, man must now contour plow and divert this massive energy to be stored in unoccupied valleys using small earthen dams and concrete spillways. Well over 70% of all regional water can now be stored as potential energy at the highest elevations thereby reducing all flooding at lower levels. Now, hydroelectric and irrigation powered water is accessed in previously uninhabited areas. Abundant water is now used for fish farms, vegetables, fruits, pine/hardwood tree farms and sugar Palm (tree) plantations. This repopulates our world away from the mega congested slum cities of our world as ALL BENEFIT except the criminal tycoons who control our economics at all levels of society. All 7.5 billion of my-our people now reside in outback villages.

These new 'GREEN DIGITAL Creative villages' are now OWNED by the people as power self-regulated and self-managed communities that are independent of the mega power criminal enterprises that have only motive to suck the profit assets out of our people by holding them hostage to their own growing power appetites driven by consumer capitalism. This destroys the stranglehold of mega developers and BANKSTERS who criminally profiteer on the uneducated masses of my 7.5 Billion People.

If anyone in our world has a BETTER SOLUTION, then PLEASE STEP UP and GO PUBLIC to save our world from the greed and predatory destruction of the Criminal Ruling Elite. Objections are always welcome as long as you PROVIDE the replacement and best solution. That is UNITYuRL.com that also transforms and UNIFIES mankind.

June 6, 2016. Previous Dec 27, 2014

SolutionSafeWater.com solves the #1 problem of all humanity, clean safe drinking water.

Using EVOTE.ONE and [www.SolutionFinal.com](http://www.SolutionFinal.com) that benefits each affected party, Solution Safe Water is a patent pending design for a solar powered water distillation still. Use the image of an original Moonshine Still located directly under a satellite dish coated with reflective aluminum sheeting.

The boiler unit is fed gray, polluted, diseased, and 'CRAP' water. With direct sunlight focused on the steam unit, this water is progressively turned into vapor that rises through a series of piping and condenser domes that are inverted over the main dish. The resulting vapor condenses into droplets that are feed off to cisterns. The left over residue is gravity feed to waste containers with option of a mechanical scrapper to remove hardened waste products. The only kind of water that could not be processed is radioactive water. Any chemist and distillation expert can see the TRILLIONS of USD/EURO/PESO/YEN/etc value to any country that has limited access to clean safe drinking water. Even salt water is easily desalinated.

The over riding question the world is now asking is 'HOW IN HELL (gentile speak) can the #1 Renaissance man who works on behalf of GOD and ALL nations [www.SaveAllNations.com](http://www.SaveAllNations.com) be subjected to so many CRIMES against HUMANITY and still be providing humanity with GIFTS called ACTS of WISDOM.

For details, simply go to [www.UNIocracy.com](http://www.UNIocracy.com) that ties into #1 ANTI-CORRUPTION solution named [www.SolutionGovernment.com](http://www.SolutionGovernment.com) Then go to [www.SolutionBankFraud.com](http://www.SolutionBankFraud.com) that prevents ALL cybercrime bank fraud transactions at the time of each transaction. These are worth Quad-Trillions in economic benefit to our world. Let's start using the coined phrase 'GOD-ZILLIONS' for any scholar and even kindergartners can see these are all part of the

most powerful 'ground swell, grass roots, REFORMATION MOVEMENT in all of history. For the basics are:

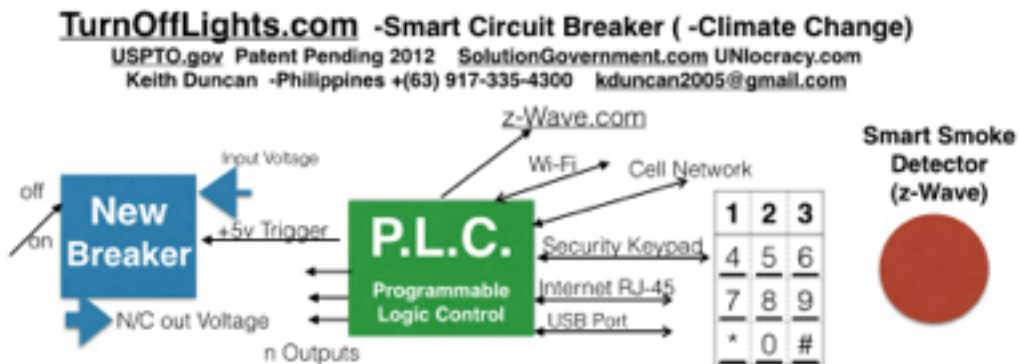

1. Common Sense -This clearly is elusive + avoided by most of mankind. Matthew Chap 23.
2. Biblical principals that transcend any and all denominations and spiritual belief systems.
3. Use of off-shelf technology and process methodology that is now main-stream reality.

All of these GIFTS to HUMANITY are derived from +35 years extreme consulting experience in the Computer Systems Design arena as a PRIME ARCHITECT, servant to multiple churches around the world, and Keith Duncan's love of all mankind regardless of their own CRIMES against HUMANITY, vicesful conduct, and ability to a) Rape b) Pillage c) Plunder d) Abuse GOD's borrowed assets by taking advantage of HIS/MY People.

No more BlackOuts ever. Saves 10 to 50% of all world energy.  
 Enables Owner, Utility Co, Police, Fire, Emergency control of all power.

**PLC with CPU, RAM, Clock, ROM, 6 interface ports with serial # and passwords.**

Internal breaker has SCR or solid state switch or mechanical solenoid.  
 Multiplied by every building, residence, government, the savings are Trillions \$\$  
 Economics: massive reduction in consumption. Power Companies burn less oil + coal.

No more new dirty power plants need to be built. Savings are Billions \$\$\$  
 Reduction in need for any foreign energy purchases. Militaries are recalled home.  
 Terrorists + nations can no longer hold energy reserves as [HostageForProfit.com](http://HostageForProfit.com)  
 PLC has access password, GPS location, Contact info. Connected thru free local internet.

Each PLC and Smoke Detector communicates with local clusters to broadcast status.
